Spring Disorders

Shattered nerves, tired brain, impure blood, debilitated system, all are the natural outcome in the Spring. A medicine must be used, and nothing equal Paine's Celery Compound. We let others praise us—you cannot help believing a disinterested party.

Brigadier-General W. L. Greenleaf, Burlington, Vt., writes: "I have used Paine's Celery Compound on several occasions, and always with benefit. Last spring, being very much run down and debilitated, I commenced taking it. Two bottles made me feel like a new man. As a general tonic and spring medicine I do not know of its equal."

"I have used two bottles of your Paine's Celery Compound, and it has given entire satisfaction as an appetizer and blood purifier."
T. L. BERNER, Watertown, Dakota.

Paine's Celery Compound

Prescribed by physicians, recommended by druggists, endorsed by ministers, praised by ushers, and guaranteed by the manufacturers, as a spring medicine which will do all that is claimed for it. Use it this spring, and see how quickly it tones you up.

Purifies the Blood.

Full accounts of wonderful cures made by Paine's Celery Compound after other medicines and the best physicians had failed, sent free. There's nothing like it.

DIETETIC CRANKISM.

Why There Can Be No General Rule for Eating and Drinking.

A Chicago physician has recently taken the position that there are more people killed every year by insufficiency of nourishment than by overloading their stomachs. The fact is, he says, that most people do not eat enough, and, above all things, they do not eat meat enough. In direct opposition to this physician's opinion, says the San Francisco Chronicle, is the dictum of the celebrated Abernethy that one hundred people die of repletion to one of starvation. Wonderful as its advance have been, the sciences of eating and drinking are still far from being exact. Given the same subject, the same conditions, and two examining physicians, and the chances are that the diagnoses will be widely different.

One doctor will tell a patient that the palpitation of the heart from which he is suffering is due to permanent cardiac weakness; while the second will assure him that it is ascribable to indigestion, and it is only a temporary trouble. Post-mortem examinations play havoc with the concrete wisdom of an ante-mortem consultation; and a change of doctors without any change of disease invariably means a change of treatment. But the object of this article is not to arraign the medical profession, but to enter a protest against the harmful utterances of the hundred and one professors of dietetics who persist in confounding their own stomachs with every body else's stomach. A peculiarity of the authority on diet is that he is not content with anything less than a cure-all.

Some time ago the announcement was made that the demon of dyspepsia must be drowned in hot water, taken as a drink. Forthwith the dyspeptics began to scald their insides and then wondered why that which was tender before grew to be tender still. Nor was the evil confined to this tenderness. The new order of caloric hydropaths insisted that it was necessary to distend the stomach, and the stomach, having been put into the habit of being distended, was constantly demanding distension. The desire so created was an urgent one, and a craving was set up which was quite as absolute in its way as that which arises from the use of ardent spirits or chloral.

Directly opposed to the hot-water drinkers were those who pinned their faith upon the sovereign efficacy of cold water as an article of diet. It is God's own brewing, Adam's ale, they said, and the flowing streams, purring brooks and limpid lakes were pointed out as a pellucid proof that cold water was intended to be the universal drink of man. The stomach should be treated to a glassful of this natural liquor before breakfast and there would be no more dyspepsia, provided cold water was used in plenty of it. Then arose another sect who declared that much cold water was just as harmful as much hot water, and very little cold water should be drunk, and none at all unless it had been boiled. It was just as absurd, said this sect, for a man to drink water in its natural state as it was for him to eat carrots or sheep's trotters in their natural state. Every thing was full of low and dangerous forms of existence which had to be killed by heat before it was fit article of food. Just as there were trichinae in pork so there were microbes in water, and the man was a fool who ran the risk of taking in scarlet germs as he quenched his thirst at the purring brook or endearing his children's health by giving them horrid and unboiled bacteria out of the limpid lake.

Against the gentlemen of the kettle and cook-pot were arrayed the believers in an Edenic diet, who held that, so far as food was concerned, whatever is, is right, and that a raw turnip was a very fit turnip. Nothing must be cooked, not even rice, and all that was necessary to achieve a luscious and well-preserved old age was to feed on uncooked vegetables and munch on unboiled cereals. These are but few examples of the stupid way in which some one particular food or fashion of feeding has been made to do duty as a general nostrum. The school of common sense is a good one to consult sometimes, and if its practitioners have only succeeded in mastering the truth that what is one man's meat is another man's poison, they have, at any rate, reached a safe seat. There can be no general rule for eating, and the sooner we come to that conclusion the better. Age, climate, occupation, constitution have all to be considered before attempting any experiments in nutrition.

An Artistic Watch-Dial.

The changes which the flight of time brings upon humanity afford an inexhaustible subject for the poet and the artist. As a notable specimen of emblematic work of a very appropriate and felicitous kind, a watch-dial now in process of construction at Waltham, Mass., is described by the American Jeweler. It contains, instead of the usual numerals, twelve small but distinct silhouette figures, beginning with a woman with a very young child in her arms. At one o'clock the lady and her little baby are clearly depicted, the infant being in long clothes. At two o'clock the same figures appear, but the child is a little larger. At three o'clock mamma is still there, but the infant is in short clothes. At four o'clock he again appears, and so on up to eight o'clock, when he goes to school for the first time. At nine o'clock he may be seen with his college gown and mortar board and the pleased smile of the now elderly but happy mother. At ten o'clock the death-bed scene is presented, where he parts with his beloved mother. At eleven o'clock he is a middle-aged man, over whom the snow of many winters have passed. At twelve o'clock he makes his final appearance as an old and decrepit specimen of humanity yearning for a better land.

How to Smoke a Cigar.

An old smoker says that to give some persons good cigars is like casting pearls before swine, because they do not know how to light them. The best "Havanna" that is "imported" from Florida or Connecticut will yield but a vile, unsatisfactory smoke if lighted so as not to burn a clear ring all around and evenly. The outside or wrapper is of the best tobacco; the next, the "binder," is of a poorer grade while the bulk of the cigar is "filler," is the poorest. They are assorted with the intent that they be burned together. When this is done the result is a delicate and gratifying smoke. The full benefit of a cigar is only secured when it is lit thoroughly and the center kept moderately close so that it will not fall off right at the fire.

A Hawk-Spotting Hog.

Clyde Sweeney, of Cumming, Ga., is evidently the Eli Perkins of that vicinity. He says his father has a hawk that will spot a hawk sailing around in the air and will hang around under the pirate bird until it makes a swoop. Mr. Hog then darts up, snatches the hawk out of the air and devours it. Clyde's father also has a cow that catches and eats rabbits.

HOW SHE CONQUERED.

Friendship and Love Won by the Lack of Self-Consciousness.

George Paul, a young civil engineer, while surveying a railway in the Pennsylvania hills, met a plain, lovable little country girl, and married her. After a few weeks he brought her home to his family, in New York, and left her there while he returned to camp. Marian had laid many plans to win the affections of her new kinsfolk. She had practised diligently at her music; she was sure they would be pleased to hear her stories of her beautiful sister and her brother; she imagined their admiration of her new blue silk gown and winter bonnet. But the Pauls, one and all, were indifferent to her music, her family and her gown. They gave "George's wife" a friendly welcome, and then each went on his or her way, and paid no more attention to her. After the first shock of disappointment, Marian summoned her courage.

"If I have nothing to give them, they have much to give me," she thought, cheerfully. She listened eagerly while Isabel sang, and her smiles and tears showed how keenly she appreciated the music. She examined Louise's paintings every day with unflagging interest, discussed every effect, and was happy if she could help mix the colors or prepare the canvas. She questioned grandma about her rheumatism, advised new remedies, or listened unwearyingly to the account of olden days.

When Uncle John, just returned from Japan, began to describe his adventures, Marian was the only auditor who never grew tired or interrupted him. After a two hours' lecture, in which her part had been that of a dutiful, bright-eyed listener, Uncle John declared that George's wife was the most intelligent woman he had ever met.

When George came home the whole family was loud in her praise. She was a fine musician; she had unerring taste in art; she was charming, witty and lovable; but George soon saw that she had won them unconsciously; not by displaying her own merits, but by appreciating theirs.

This is a true story in fact, but the truth of its meaning is repeated wherever a woman is found who has the intangible quality called "charm." She may be deformed or pock-marked, but will win friendship and love by the lack of self-consciousness, by her quick sympathy with others. Many an unattractive girl would save herself much anxiety and vain effort at her entrance into the world of society if she understood that it was made up of individuals each of whom desired to find not the beauty, wit or talent of others, but the cordial recognition of their own. If you can honestly forget yourself and take an interest in others, you will soon find yourself surrounded by hosts of friends; but if you dishonestly affect this interest, you will desert them as the dustiest companion will recognize you as a snob and a toady.—Youth's Companion.

THE PARSON'S PLAIN.

Although the Good Man Was Ill, He Could Still Grind the Poetry Mill.

The parson of a country church, says Bob Barker in the Burlington Eagle, was a fit on his bed, three months' arrears of salary was piling his head; his couch was strewn with tradesmen's bills, that pricked his sides like thorns, and nearly all life's common life was gone with him. The deacon sat beside him as the months ticked away, and bent his head to catch the words his pastor had to say.

"If I never shall arise from this hard bed on which I lie, if my warfare is accomplished and the time for me to die, make a message to the sexton, before I pass away; tell him fires are for December, and open doors for May. Tell him, when he lays the notices upon the pulpit's height, to shove them 'neath the cushion far out of reach and sight. And when he hears the preacher's voice in whispers soft expire, that is the time to slam the doors and rattle at the fire. And tell the other deacons, too, all through the busy week, to hang their boots up in the sun to hatch a Sunday squeak. With steel-shod soles to prod the man who comes to sleep and snore; and use the boys who laugh in church to mop the vestry floor. There's another, too, the woman who talks the sermon through; tell her I will not mind her words, but when she comes to the benediction, tell her to hang her mouth up some Sunday for a minute and listen to a text, at least, without a whisper in it. And tell the board of trustees not to weep with bitter tears, for I can't be any deader now than they have been for years. And tell my congregation I'm glad salvation's free, for that's the only chance for them—between the desk and me. And a farewell to the choir—how the name memory racks. If they could get up their voices as they do get up their backs, why the stars would hear their music and the welkin would rejoice, while the happy congregation could not hear a single voice. But tell them I forgive them, and oh, tell them that I said I wanted them to sing for me—when you're sure that I am dead."

His voice was faint and hoarse, but it gave a laughing break, a kind of gurgling chuckle, like a minister might make. And the deacon he rose slowly, and sternly he looked down upon the parson's twinkling eyes with a portentous frown. "Is he silly?" said "Good morning" as he went off in his fire, for the deacon was the leader of that amiable choir.

The best "Havanna" that is "imported" from Florida or Connecticut will yield but a vile, unsatisfactory smoke if lighted so as not to burn a clear ring all around and evenly. ACCORDING to a Territorial law in Dakota, a county official having patronage to bestow must give the preference in his appointment to an ex-Union soldier, other things being equal. An ex-Union soldier who applied for a place to a county official and who was rejected and a man not from the old army appointed, has sued out a mandamus to compel the cancellation of the appointment and the substitution of himself in the place, on the ground that he was the only ex-soldier asking the appointment. It is a curious case.

THE London Spectator, in a recent article, endeavors to look into the future and determine what the United States will become within the lifetime of the present generation of children. It concludes that we will possess a population of 200,000,000, and resources by which we may raise for governmental purposes \$1,500,000,000 per annum, and further says that no European power, and nothing else than a combination of all European powers, could have such an army as this Republic could then marshal.

It is a pleasant sight to see the people of a Territory sinking all party feeling and political division and harmoniously working together for the common weal. Such is the honorable condition of affairs in Idaho to-day. In the movement for Statehood, not only the leading men, but the rank and file of both parties are working side by side for the common good of Idaho. This is wise and alike honorable to both Democrats and Republicans.

CONNECTICUT is going to vote on the question of a Prohibition amendment. Let us see what verdict the people of the "Land of Steady Habits" will render on the proposition.

IN Montana, Dakota and Washington Territories the elections are going on for delegates to their Constitutional Conventions with a great deal of earnest feeling.

THE Comstock's "political weapon" is still harping on its independence (?), this time in an attempted answer to a burning editorial in the Silver State.

Carry Off Their Converts.
BIRMINGHAM, Ala., May 18.—A flourishing Mormon Church in Clay county has been broken up by the indignant citizens of that neighborhood, and the elders in charge of it have been warned to leave the country without delay. The Mormon elders have been proselyting in that county five years and have made many converts. They established a church about a year ago, and have been holding regular services since. The most of the elders have left, and the others will follow. They carry the most of their converts with them.

Serious Charge.

STOCKTON, May 18.—Joseph Ferrel, janitor in the Presbyterian Church in this city, was beaten over the head with a pistol to-day by Joseph Badger, a well-known citizen. Badger accuses Ferrel of tampering with his 10-year-old daughter when she entered the church to return some hymn books. Ferrel is 45 years old and has a wife and five children. He is in jail on a charge of criminal assault.

An Excursion—Insane—Minister Rice's Funeral.

NEW YORK, May 18.—The members of the Presbyterian General Assembly went on an excursion to-day.

Captain James Chester of the Third Artillery, stationed at Governor's Island, became violently insane on the street this morning. He was turned over to the military authorities.

The funeral of Allen Thorndike Rice took place to-day at Grace church. The pall-bearers were Vice-President Levi P. Morton and Walker Blaine, representing the Department of State; General W. T. Sherman, Mayor Edward Cooper, Pierre Lorillard, Chauncey M. Depew, S. H. Olin, Wm. Jay, Wm. P. Douglas and W. W. Astor. Among the gifts of flowers was one from President and Mrs. Harrison. The service was the regular burial service of the Episcopal church. Bishop Potter officiated, assisted by the Rev. Dr. Huntington, Rector of Grace Church. The remains will be left in the vault of the church for a time.

A Widespread Plot to Kill the Czar.

LONDON, May 18.—Advices from St. Petersburg state there has been discovered a conspiracy among the military officers against the Czar recently, which has many widespread ramifications. The officers of the regiments stationed in Moscow and Warsaw are implicated in the plot, and three of them have committed suicide. A bomb was found in the quarters of one of the officers in Warsaw. Hundreds of the conspirators have been arrested. The discovery of the plot completely shattered the Ottomans.

A Texas Cyclone.

ST. LOUIS, May 18.—A storm of the cyclonic character swept across northern Texas yesterday afternoon. At Forest City, Montague county, the schoolhouse was destroyed, two children killed, many seriously hurt and three are missing. Another schoolhouse at Stephenville was blown down and two children injured. Great destruction of crops occurred. Telegraphic communication is broken and it is feared when the news comes many more lives will be reported lost.

A Turpentine Well.

SAVANNAH, May 18.—A report comes from Laurens county that a well has been found there from which pure spirits of turpentine is drawn. The well is sixty feet deep, and it is claimed that fifteen barrels of turpentine have been drawn from it at one time. The question is whether there is a natural reservoir or whether the well has been "salted" with the manufactured product.

Business Failure.

PHILADELPHIA, May 18.—The Almy Manufacturing Company, manufacturers of ladies' fine clothes, has made an assignment. The company's mills are among the largest in Kensington district, employing 400 hands. It is expected the embarrassment will be only temporary. Liabilities, \$200,000; assets, \$370,000. Poor collections was the cause of the embarrassment.

Report Confirmed.

WASHINGTON, May 18.—The Adjutant-General has received a telegram from General Miles of San Francisco confirming the Associated Press report of the capture of Cyclone Bill and M. E. Cunningham, and their identification by Frankie Stratton as Paymaster Wham's robbers.

Putting up Their Cash.

NEW YORK, May 18.—McAuliffe has covered Myers' forfeit for another fight to a finish for the championship. Myers proposes that the fight be near New York, or under the auspices of one of the California athletic clubs.

New College Building.

LONDON, May 18.—The Queen to-day laid the foundation stone of the new college building at Eton. The boys attending the college presented her Majesty with an address, to which she replied.

Bank Statement.

NEW YORK, May 18.—The weekly bank statement shows the following: Reserve increase, \$5,231,750; specie increase, \$3,469,300. The banks now hold \$14,204,325 in excess of the rule.

Receiver Appointed.

CINCINNATI, May 18.—A Receiver was appointed this morning for the Waldauer Electric and Magnetic Brake Company, capital stock \$600,000.

Receiver Appointed.

CHICAGO, May 18.—Judge Graham of the Federal Court has appointed V. T. Mallott Receiver of the Chicago & Atlantic Railroad.

The Shorts Get Caught.

NEW YORK, May 18.—At the highest figure of the Oregon Transcontinental there was a flood of stock offered and the price dropped five per cent. at a time to 40. It later sold at 39, but there was a demand for many thousand shares at that figure and it quickly moved back to 43, and at the close sold at 42. The unlooked-for discovery of a big short interest in the Oregon Transcontinental made the brokers anxious about their short accounts in other stocks, and fears are everywhere expressed. The entire market was heavily oversold. The feeling was increased by the course of St. Paul, preferred, which advanced five per cent. on an attempt to cover short stock. The buying fever extended to Atchison, and orders to cover shorts in that stock caused it to advance sharply. Burlington moved up two per cent. and Rock Island followed. The entire bear contingent left the street anxious about the future and they wait for Monday's opening with fear and trembling.

At Villard's office everything appeared quiet, in marked contrast with the excitement at the stock exchange. Villard was not down, but his private secretary explained that the excitement on the floor was a matter with which Villard had nothing to do.

The fight for the control of the stock at the election is over, and Villard has 201,700 shares out of a total of 400,000. He added that there will be nothing new in the affairs of the company until the election at Portland, Or., in June. The other party, to which belong Elihu Smith, Sydney Dillon, Frederick L. Ames, and other well-known men, claim that they hold a majority of the stock, and that Villard cannot possibly vote 201,700 shares unless he has issued some of the remainder of the remaining 100,000 of the Treasury stock in spite of the injunction.

The opposition issued a joint call for proxies this morning, and it is stated that their policy will be in favor of an amicable arrangement with the Northern Pacific, St. Paul, Minneapolis and Manitoba, and Union Pacific, including its connecting lines and the Oregon Railway and Navigation Company.

Consolidated.

NEW YORK, May 18.—At a meeting of the representatives of the American Meat Company and the American Cattle Trust this afternoon, a draw between the two concerns was finally consummated. A contract for a term of years was signed by both controlling powers of the two organizations, by which the meat company will handle the entire product of the cattle trust. Senator Dursey of New Mexico preferred not to mention the details, but said the organizations have been consolidated, "when we effected a traffic agreement," which, "which practically makes the American Meat Company the agent of the American Cattle Trust."

Baseball Games.

NEW YORK, May 18.—The New Yorks and Pittsburghs played a tie game, the score standing three to three. Welch and Brown were in the points for the home team and Staley and Miller for the Pittsburghs.

BOSTON, May 18.—The home club defeated the Cleveland club, the score being 10 to 8. Clarkson and Bennett formed the battery for the Boston; O'Brien and Zimmer for the Cleveland.

PHILADELPHIA, May 18.—Phillies 5, Indianapolis 4. Batteries—Buffington and Clement for the home team and Boyle and Myers for the Indianapolis.

Chicago Insane Asylum.

CHICAGO, May 18.—In the Insane Asylum investigation Dr. Alexander of the Asylum's medical staff testified that he would advise the friends of any insane woman to keep her at home, no matter how violent. It would be better for her to commit suicide rather than be sent to the Asylum in its present condition.

Case of Blackmail.

CHICAGO, May 18.—John S. Cosgrave and wife have been arrested by the Federal authorities on complaint of C. T. Smith of Los Angeles, Cal., charged with using the mails for the purposes of blackmail. The authorities decline to give the particulars, but say the case is an important one.

Pension Appropriation Exhausted.

WASHINGTON, May 18.—During the past week the Treasury Department disbursed \$11,380,000 on account of pensions, thereby exhausting the appropriation for the current fiscal year.

Suicide by Poisoning.

SPECIAL TO THE GAZETTE.
SAN FRANCISCO, May 18.—Alfred E. T. Baker, a painter, committed suicide this morning by swallowing carbolic acid. He leaves a wife and three children.

Oil Tank on Fire.

NEW YORK, May 18.—A fifteen thousand barrel tank at Pratt's Oil Works at Williamsburg is on fire, with a prospect of spreading.

Will Moon Attack.

ZANZIBAR, May 18.—Captain Wisman will soon attack Kilwa, at present in the hands of the insurgents.

Campanini's Lost Voice.

How soon the glory of a great singer fades when the voice is no longer perfect. I was reminded, says a writer for an Eastern paper, of this unpleasant fact the other night when the once great tenor Campanini came into an Italian restaurant to get his dinner. How things have changed with him! Less than ten years ago all New York was at his feet. Now, with voice and money gone, he is sought by the people who used to fawn upon him. The only great singer who has been able to preserve his voice in its purity to middle age is Patti. Nilsson and Gerster lost theirs comparatively early, but Patti at forty-five is still the queen of song.

There is a message at the telegraph office for William Larous.

This is the season of the year when the raw, cold winds create and have with the hands and complexion. Soft, white hands and a clear, healthy complexion can be assuredly preserved by the frequent application of Dettol's Specific. If rubbed into the skin it will leave no greasy surface. The skin absorbs it. Sold by William Plummer.

Religious Liberty.

The Boston Transcript of the 6th inst. says: Miss Kin Kato, who came to this country from Japan about five years ago, to be educated, left Salem, Mass., to-day, for her home, via California. She has taken a course at the Salem Normal School and at Wellesley. She has embraced Christianity, and yesterday she was admitted to membership in the Tabernacle Church in Salem. When she left her native country for America it was understood to be the desire of the Japanese Government that her religious ideas should not be influenced. It was understood, however, that the Government would not interfere if she became a Christian of her own free will.

An Expression of Delight.

"About a week ago," says a Los Angeles, Cal., druggist, "a Chinaman came in with a lame shoulder. I sold him a bottle of Chamberlain's Pain Balm and guaranteed that it would cure him. He came in again last night, and as soon as he got inside the door began to swing his arms over his head like an Indian club swinger. He thought the blamed fool had a fit, but he finally stopped long enough to say: 'Medicine verry fine, verry fine; alle my pains is gone, my ole country good.' Chamberlain's Pain Balm is without an equal for sprains, rheumatism, aches, pains or lame back. For sale by Osburn & Shoemaker."

Saving on Bond Purchases.

The total amount of bonds purchased from August 3, 1887, to date is \$163,382,850, of which \$101,805,050 were 4 1/2 per cents, and \$61,577,200 were 4 per cents. The total cost of these bonds was \$189,180,250, of which \$110,268,210 was paid for the 4 1/2 per cents, and \$78,912,048 was paid for the 4 per cents. The cost of these bonds at maturity would have been \$224,594,152, or \$116,986,507 for the 4 1/2 per cents, and \$107,607,645 for the 4 per cents. The saving by their purchase was \$34,413,892, or \$5,828,290 on the 4 1/2 per cents, and \$28,585,602 on the 4 per cents.

A Murderer Capured.

Richard Lee, who eighteen years ago, near Los Angeles, deliberately shot and killed William Duncan, and then made his escape, has been located in the jail at Ellensburg, W. T., where he is serving a sentence for assault to murder. He has been under an assumed name, that of Bennett Jackson, and lived in Winemunda sixteen of the eighteen years, where he has a family of a wife and six children. Lee will be secured on a requisition and be tried at Los Angeles.

An Open Border.

Deputy Collector of Customs, S. E. Croake of Tacoma, W. T., has just returned from a trip to the American border, between Washington and British Columbia. He says he found that for several hundred miles along the border there was not a single American officer to prevent the smuggling of opium or the crossing of Chinese into the United States.

Cow Team.

A team of four cows appeared in Bellevue, Idaho, not long ago, having been driven from Nebraska a distance of 1,000 miles. They had acted as motive-power for a prairie schooner and had also furnished milk and butter for the farmer and his family en route. They were in good condition, with the exception of their feet, which needed shoes badly.

In Three Days.

Three days is a very short time in which to cure a bad case of rheumatism, but it can be done, if the proper treatment is adopted, as will be seen by the following from James Lambert of New Brunswick, Ill.: "I was badly afflicted with rheumatism in the hips and legs, when I bought a bottle of Chamberlain's Pain Balm. It cured me in three days. I am all right to-day; and I would urge on everyone who is afflicted with that terrible disease to use Chamberlain's Pain Balm and get well at once." For sale by Osburn & Shoemaker.

Ladies of the Korean Legation.

The women attached to the Korean Embassy are very popular in Washington. They are working hard to acquire an English education. They have their own parlors, in which they receive their lady callers, but no gentlemen. Gentlemen calling with ladies in their party are received by men of the legation, while the ladies are invited up stairs to meet the Korean wives in their own apartments.

JOTTINGS.

Smoke Puffs of Washoe cigars.
Go to Lange & Schmitt's for garden hose, lawn mowers and ice cream freezers.
An extra fine lunch will be set out to-morrow at J. J. Becker's Chicago Saloon.
Buy your furniture at W. L. Needham's, who has reduced prices to bed-rock figures.
For as fine a meal as can be had in town, go to the Riverside for your Sunday dinner.
S. L. Cohoon of the Wieland beer bottling works is prepared to fill all orders as soon as received.
Clam Chowder, baked beans and other good things at George Becker's Granite Saloon to-morrow.
Give your wife a day of rest by taking your family to the Depot Hotel to-morrow for their Sunday dinner.
Go to C. A. Thurston's news depot for all the latest magazines and San Francisco and Sacramento papers.
Jellies of all kinds at Coffin & Larcombe's. Also strawberries and cherries fresh from the vines and trees.
Canned oysters, lobsters, sardines, the best brands of baking powder and fresh candies are sold at Leabetter's.
C. J. Brookings carries all sizes of the scissors and shears manufactured by the Clauss Shears Co., at Fremont, Ohio.
There is nothing in the line of the best family groceries that cannot be had at J. N. Wallace's Commercial Row store.
All the latest styles of hats, bonnets and trimmings at Miss Emma Gibbs'. Examine her stock and you will be sure to buy.
People who take their meals at the Pollard House are often heard to express surprise that landlord Killean is able to give a 50-cent meal for 25 cents.
For your weekly bath go to John Belz's, whose rooms, tubs and towels are always clean. His three live barbers attend to the tonsorial wants of all without obliging them to wait until out of patience.
For everything in the line of the best beef, mutton, pork and salt meats, patronize J. H. King's New Market. He has the best and most reliable beef, mutton and pork that he can get. All the meat markets will be closed to-morrow.

To Dispel Colds.

Headaches and Fevers, to cleanse the system effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to weaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Srup of Figs.

A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep she bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking the first dose that she slept all night and with one bottle was miraculously cured. Her name is Mrs. Luther Lutz." Thus wrote W. C. Hamrick & Co., of Shelby N. C.—Get a free trial bottle at S. J. Hodgkinson's Drug Store.

Answer this Question.
Why do so many people who are around us seem to prefer to suffer and be made miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Coming up of the Food, Yellow Skin, when for 3 cents we will sell them Shilo's System Vitalizer, guaranteed to cure them? Sold by Osburn & Shoemaker.

A GROWL.

What the "Advocate" Has to Say About the Mail.

The Reno GAZETTE complains of the inefficiency of the mail service, and asks for the removal of incompetent officials. It is our opinion that much of the fault is in Reno. "No Western Mail," at the Postoffice here is getting to be decidedly chestnutty. If the officials at Reno cannot make the connections with the N. & C. properly they should be removed, and men put in who are a little more nimble with their fingers. We have stood the nuisance long enough, and it is time they were removed. —Suzanneville Advocate.

The mail from the west does not get in until an hour and a half after the N. & C. takes its departure north, so the trouble cannot well be remedied. It would seem, however, that the running of trains north might be regulated so as to give our neighbor better mail facilities.

A WEARY BRAIN.

The Disconnected Sayings of a Tired Head.
As a GAZETTE reporter was passing the Asylum this morning, he was hailed by a crank, who, having a letter carefully tied up in a piece of newspaper, requested the reporter to mail it. It was addressed to the "Livery Stable, Reno." The letter read as follows:

Tuesday, at 8 A. M. o'clock, come to the Asylum for Joseph Dumas to go and see the circus.
JOSEPH DUMAS, 5 glass cobbler shoes shoemaker, Reno.

BREVITIES.

Local and General Intelligence.
Chickens have "riz."
Read the 50-cent ad. of money to loan.
Thirteen cars of lumber, from the upper Truckee, passed east last evening.
The Carson school children have asked for a holiday on the 20th inst., on account of the circus.
The Silver State fails to reach the GAZETTE, and it feels the loss of so valuable an exchange.
The recent snow-storm at Lake Tahoe caused the temporary shutting down of the Glenbrook mills.
R. C. Blossom of Battle Mountain is in town with two cars of horses which he is taking to Stockton for sale.

An Outrage.

The mail which leaves this city at 7 o'clock in the evening, says the Carson Appeal, lays over in Reno instead of going on the train which takes the passengers. It now takes a letter two days to reach San Francisco. This is an outrage for which the C. P. R. R. is solely responsible.

The Appeal has good cause for fault-finding at the way the mails run now. It takes a letter nearly two full days, or at least forty hours, to go from Carson to its destination in San Francisco, for the mail arrives there late in the evening and is not delivered until the following morning.

The Case Dismissed.

The case against George C. Thaxter, the Carson druggist, for selling liquor after 12 o'clock (midnight) was, on motion of the District Attorney, dismissed from Court yesterday. It looked as if it was a case of persecution instead of prosecution, for it is fair to presume that any one going to a drug store after midnight and calling a clerk out of bed to get "half a pint of brandy," they want it for medicinal purposes.

A Hard Fought Case.

The celebrated case of Gruber vs. Oest, Munckton et al. was decided today by Judge Bigelow in favor of the plaintiff. This is a Silver City mining case, in which R. H. Lindsay and R. M. Clarke appeared for plaintiff, and after a very hard-fought battle they got the reward. The GAZETTE congratulates Messrs. Lindsay and Clarke on their success.

The Water Commission.

The Water Commissioners who have charge of the expending of the \$100,000 appropriated by the late Legislature for water storage expect to meet in Carson next week to decide on a location. The Commissioners are: Evan Williams, H. Springmeyer, L. A. Blakeslee and John R. Bradley.

K. of P. Representatives.

Carson Lodge has elected the following representatives to the Grand Lodge, Knight of Pythias of Nevada, which convenes in Virginia City on the 18th of June: Jonathan Doane, T. R. Hoar, Hume Yerington, L. A. Frisbie, L. L. Elrod and Will U. Mackey.

Stock Shipments.

This morning George Humphrey shipped six cars of beef cattle to Welby & Judge, San Francisco, and next Monday he will ship one carload to Colfax. This will clean up all the cattle fed on the Truckee Meadows during the past Winter.

Not So.

The fruit crop in this county is all right, but it is knocked cold in Washoe. —Carson Appeal.

You are laboring under a mistake, neighbor; fruit is all right in Washoe up to date.

What It Cost.

The Tribune says: The small-pox scourge of last Winter cost Carson City and Ormsby county about \$1,550. Additional claims to the amount of \$576.75 are pending before the Board of County Commissioners.

Artesian Water.

Theo. Winters yesterday finished the boring of an artesian well 265 feet in depth and succeeded in getting a flow of 150 gallons per minute. This is the third flowing well in Washoe valley.

Fred Pavola has got permanently established in his new quarters with a full line of men's, boys and youths footwear, which he offers at living rates.

SELLS' CIRCUS.

The Great Combination To Be in Reno on Tuesday.

Cardinal Richelieu said "in the lexicon of youth there is no such word as fail," but he lived in an age when enterprise of the greatest moment are dwarfed into oblivious insignificance compared with the achievements of the nineteenth century. Had the wise old Cardinal lived in these days, he undoubtedly would have qualified his language and put it in this way: "In the lexicon of youth there is no such word as fail, except in the show business." Out of over two hundred shows that have appeared on the stage of life, since Sells Brothers became identified as showmen, there is but one other firm in existence now, the others having all failed. Notwithstanding the discouraging statistics which are calculated to frighten people from embarking in so hazardous a business, Sells Brothers are not deterred from undertaking the most stupendous enterprises known. This show last season exceeded in size and daily expense any other circus organization by long odds, yet they plotted it successfully across the continent. This year they have undertaken what would seem to other managers certain bankruptcy—the addition of another show, nearly as large as their own, the S. H. Barrett's World's Fair, and both big shows will travel in unison, exhibiting as one. Both these shows were perfectly equipped and organized to travel separately, as they have done for many past seasons, but when Sells Brothers learned that the Barrett show contemplated making a tour of the Pacific Coast this season, negotiations were opened which resulted in the consolidation of both shows in one, and the tour will be made in unison. While this will increase the daily expenses nearly double the price of admission will not be increased. The two shows combined will exhibit at Reno on next Tuesday, May 21st.

A County Teachers' Institute.

Ira G. Hoitt, State Superintendent of Public Instruction for California, passed through Reno yesterday for Sacramento. He has been attending the Teachers' Institute of Plumas county at Quincy, and reports a wide-awake corps of teachers in that county; that excellent work was done at the Institute, and that County Superintendent, R. B. Foss, is the right man in the right place. Accompanying Superintendent Hoitt was Professor C. H. McGrew of San Jose, Cal., who has been in attendance at the Institute as instructor. Professor McGrew is well known in California as an Institute worker.

San Francisco Meat Market.

Following are the rates for whole carcasses from slaughterers to dealers in San Francisco:
Beef—First quality, 5½¢@6¢; second quality, 5¢; third quality, 4½¢@5¢ per pound.
Veal—Quotable at 5¢@6¢ for large and 7¢@8¢ per pound for small.
Mutton—Quotable at 5¢@5½¢ per pound.
Lamb—Spring, 8¢@8½¢ per pound.
Pork—Live hogs, on foot, grain fed, 5½¢@6¢; soft, 5½¢@6¢; dressed, 9¢@9½¢ per pound.

Good Lead Ore.

The Winnemucca Silver State says that E. N. Clark of Cedar Mining District, in the Antelope range, reports the Mohawk mine as looking remarkably well. It has been bonded or bought by Messrs. Sunderland and Farrington, who have a force of men employed in working the mine. They have about 200 tons of ore on the dump, much of which carries over 40 per cent. lead and is rich in silver. This ore will be shipped to Reno to be reduced.

PERSONAL.

Theo. Winters and wife came down from the south end to-day.
Hoo. Thomas Fitch has taken an office in the First National Bank building.
J. R. Douglas and wife of Virginia City were at the Depot Hotel last night.
E. T. Morton returned yesterday from a sheep-shearing trip to Eastern Nevada.
Richard Kirman and Norrie, the diving red man, came down from the Comstock last evening.
E. C. White, representing Hoyt's "Bunch of Kays" Company, favored the GAZETTE office with a call to-day.

More Attractions for the State Fair.

At a meeting of the Board of Directors of the Agricultural Society held this afternoon they added to the speed program already made. The first race for the 2-35 class, for a purse of \$500—\$250 to the first, \$150 to the second and \$100 to the third. The second, trotting, for three-year-olds, for a purse of \$500—\$250 to the first, \$150 to the second and \$100 to the third. The day the above races is to be named later on.

Washoe Brewery.

The Washoe Brewery has been leased by Bohle & Becker, and has had a thorough overhauling; cleaned, painted and furnished throughout. The brewery is noted all over the State for making the finest beer in the market by all who have used it. It is kept clean, neat and pure, and is open to all visitors. Give them a call. 5-17w1

Memorial Committee Meeting.

There will be a meeting of the Memorial Committee at Masonic Hall Monday afternoon, May 20th, at 4 o'clock, at which the members are requested to be present, as business of importance will be presented. N. P. JONES, Chairman. Wm. LUCAS, Secretary.

The County Assessment.

Assessor Stoddard says that he will be able to show an increased valuation on real estate in this county, but that he thinks the personal property will show a falling off, owing, in part, to the decreased valuation of live stock.

The State Fair.

The Elko Free Press says: Great preparations are being made at Reno for the coming State Fair. It is going to be the most successful fair ever held in Nevada.

The immense ash trees planted by General Washington at Mount Vernon, now the admiration of visitors.
The weeping willow over the grave of Cotton Mather, in Copp's burying ground, near Bunker Hill, taken from a tree that shaded the grave of Napoleon at St. Helena.
The Cary tree, planted by the roadside in 1832 by Alice and Phoebe Cary, is a large sycamore, standing on the campus from College Hill to Mount Pleasant, Hamilton county, Ohio.
The Washington elm still stands at Cambridge, Mass. It is on Garden street, a short distance from the colleges, and is a large, well-preserved tree. An iron fence built around it, and a stone in front is the following inscription: "Under this tree George Washington took command of the American Army, July 3, 1775."

Artesian Water.

A. H. Nelson of Ogden, a brother of Thomas Nelson of Stone House, Humboldt county, had 480 acres of land near Corinne, which, in consequence of the scarcity of water, was valueless. The Standard says Mr. Nelson concluded to get artesian water on his land, and he had a well sunk. At a depth of 450 feet water was encountered and the flow is 500 gallons per minute—enough to make the land productive. The well was bored in about a month, and it has increased the value of the land 500 per cent.

The Nicaragua Canal.

"I am glad to say," Senator Morgan told a reporter of the Birmingham (Ala.) Age-Herald the other day, "the Nicaragua Canal is a certainty. It will be built inside of six years. I have kept up with this matter, and am now in the midst of the arrangements for building it are completed. That will be a great thing for Alabama. It will not only make Mobile a great port, but will be a great thing for Birmingham and all this country."

Crushed to Death.

Thomas Woods, an old resident of Vallejo, Cal., was crushed to death last Thursday by an elevator loaded with bricks, at the Marine Hospital at the Navy Yard.

A Penny at a Time.

A Connecticut man has just died, leaving five tons of copper cents to his heirs. He has accumulated the great stock of coppers a penny at a time.

Seemingly Eradicated.

With repeated and powerful doses of quinine, chills and fever, in some of its various forms, springs into active existence again, often without the slightest apparent provocation. To extinguish the smouldering embers of this obstinate and recalcitrant malarial system, Hostetter's Stomach Bitters is all sufficient. When every resource of the pharmacopoeia has been exhausted against it, the Bitters conquer it will remove every lingering vestige of it. Nay, more, the Bitters will protect those brought within the influence of the atmospheric poison that begets malarial disease from its attacks. Disorders of the stomach, liver and bowels, are among the complaints to be apprehended from the use of miasmatic water. These are both cured and prevented by the Bitters. Rheumatism, Constipation and renal complaints yield to its action.

It should be generally known that Dr. Henry's Dandelion Root cures a heavy appetite and increased digestion, dispels nervous depression and low spirits, overcomes lack of energy and weakness, and with little new life and strength into the weakest invalid. Sold by William Finninger.

POOR PEOPLE'S CHANCES.
 Some years ago a city missionary
 was crossing one of the parks in New
 York on the Sabbath day and said to
 a lad, "What are you doing here,
 breaking the Lord's day? You ought
 to be at Church and worshipping
 God instead of breaking the Sabbath
 in this way." The poor lad in his
 rags looked up at the city missionary
 and said: "Oh, sir, it's very easy for
 you to talk that way, but God knows
 that we poor chaps ain't got no
 chance."
 The sentiment seems to be growing
 that in the United States the time has
 arrived when "the poor chaps don't
 have no chance."
 There is some truth in it. The poor
 are not shut out from making a liveli-
 hood, but the gulf between riches and
 poverty continually grows more diffi-
 cult to cross. As the country becomes
 densely populated keen business com-
 petition decreases the chances for
 accumulating wealth by ordinary busi-
 ness methods.
 But the same conditions vastly im-
 prove the chances for great success
 to those who can strike out in new
 paths, can furnish something to the
 world that others cannot.
 True merit, in commodity or ability,
 will win easily and with grand results
 in this country, if the masses can be
 induced to recognize it. This recognition
 can only be accomplished by what
 are sometimes sneeringly al-
 luded to as advertising methods.
 What a marvelous success has at-
 tended the thorough introduction to
 the world of the merits of that won-
 derful remedy for kidney disease—War-
 ner's Safe Cure. Hon. H. H. Warner
 first came to know of its curative
 power by being restored to health
 from what the doctors pronounced a
 fatal kidney trouble. He concluded
 the world ought to know of it and in
 the ten years since he began its
 manufacture he has spent millions of
 dollars in advertising the Safe Cure.
 His methods have been ingenious—
 sometimes, perhaps open to criti-
 cism, but they had a purpose, which
 has been accomplished.
 But mark! he never would have
 secured a four fold return of the vast
 sums thus expended if the real merit
 of the remedy had not been fully
 proven to the millions of people
 reached by his advertisements.
 Ten years of increasing success of
 Warner's Safe Cure is due, first, to
 intelligent and pleasing advertising,
 by which the people were made
 acquainted with the remedy, second,
 to the true worth of the remedy,
 proved by actual experience, showing
 it to be the only specific for kidney
 disease, and all diseases growing out
 of kidney derangements.
 Mr. Warner has something the
 people want, tells them so, then
 proves it to their satisfaction—success
 follows—matter of course.
